

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name: HY-CLOR BLACK SPOT AND ALGAE REMOVER

Shipping Name: Trichloroisocyanuric Acid Dry Oxidiser

Product Code: HYCBKS01-1KG

UN Number: UN2468

Other Names: TICA, Stablisied Pool Chlorine Tablets, Trichlor

Recommended Use of the Chemical

and Restrictions on Use:

Swimming Pool disinfectant and water treatment

Review Date: 7 February 2019

Chemical Formula: N/A

Supplier: HY-CLOR AUSTRALIA PTY LTD

Street Address: 178 Power Street

Glendenning NSW 2761

 Telephone Number:
 02 8805 2400

 After Hours Contact:
 0404 859 515

 Facsimile:
 02 8805 2401

 Email Contact:
 help@hyclor.com.au

Emergency Telephone: 13 11 26 (Australia Poisons Information Centre)

New Zealand 0800 764 766

Please ensure you refer to the limitations of this Safety Data

Sheet as set out in the "Other Information"

2. HAZARDS IDENTIFICATION

Classified as hazardous according to the criteria of the GHS as adopted in Australia. A Dangerous Good according to ADG 7.5.

Poisons Schedule: S5. SIGNAL WORD: Poison

GHS Hazard Statement(s)

Oxidising Solid	Category 2	H272	May Intensify fire: oxidizer
Acute Oral Toxicity	Category 4	H302	Harmful if swallowed
Eye irritation/corrosion	Category 1	H318	Causes serious eye damage
Reproductive toxicity	Category 1	H360	May damage fertility or the unbom child
Specific Target Organ Toxicity, Single Exposure	Category 3	H335	May cause respiratory irritation
Aquatic acute toxicity	Category 1	H400	Very Toxic to the aquatic life
Aquatic chronic toxicity	Category 1	H410	Very toxic to aquatic life with long lasting effects

Prevention:

Precautionary statements P210: Keep away from heat.

P220: Keep/Store away from clothing, other chemicals, acids and combustible

materials such as paper, fabric, sawdust or kerosene.

Product Name: HY-CLOR BLACKSPOT AND ALGAE REMOVER Review Date: 7 February 2019

Version 2.0 Page 1 of 7

P221: Take any precaution to avoid mixing with combustibles, acids and other chemicals ...

Review Date: 7 February 2019

P261: Do not breathe dust.

P264: Wash face and hands thoroughly after handling. P270: Do not eat, drink or smoke when using this product.

P271: Use only outdoors or in a well-ventilated area.

P280: Wear protective gloves/ eye protection/ face protection.

P273: Avoid release to the environment. - if this is not the intended use.

Response:

P301 + 312 +P330 + P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician if you feel unwell.

P304 + P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

P305 + P310+P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician

P370+P378: In case of fire: Use water for extinction.

P391: Collect spillage.

Storage:

P403 + P233: Store in a well-ventilated place. Keep container tightly closed.

P405: Store locked up.

Disposal:

P501: Dispose of contents/container in accordance with local & regional waste disposal legislation

Hazard pictograms

SIGNAL WORD: DANGER

Label Statements: Keep out of reach of Children Read Label before use

If medical advice is needed, have product

container or label at hand.

This material is hazardous

3. COMPOSITION / INFORMATION ON INGREDIENTS

Ingredients	CAS	Proportion
Trichloroisocyanuric acid	87-90-1	>90%
Inert Ingredients		<10%

4. FIRST AID MEASURES

General Ke

Keep Victim warm and quiet. Obtain immediate medical care.

Product Name: HY-CLOR BLACKSPOT AND ALGAE REMOVER Review Date: 7 February 2019

Version 2.0 Page 2 of 7

Ensure that attending medical personnel are aware of the identity and

Review Date: 7 February 2019

nature of the product involved, and take precautionary measures to

protect themselves.

Ingestion DO NOT INDUCE VOMITING. Rinse mouth with water and then give

plenty of water to drink. Seek medical attention if large amounts

ingested. Call Poison Centre 13 11 26

Eye If in eye(s) wash with large amounts of water for approximately 15

minutes holding eyelid(s) open. Seek medical attention immediately. Remove contaminated clothing and wash skin thoroughly decontaminate

clothing before re-use or discard. If swelling, redness, blistering or

irritation occurs seek medical advice.

Inhalation Remove the source of contamination or move the victim to fresh air.

> Ensure airways are clear and have qualified person give oxygen through face mask if breathing is difficult. If victim has stopped breathing begin

artificial respiration, or if heart has stopped, cardiopulmonary

resuscitation. Seek immediate medical attention.

First Aid Facilities Advice to Doctor

Skin

Eye wash and normal washroom facilities. First Aid Kit. Treat symptomatically

Medical Conditions that may

Be Aggravated by Exposure Asthma and respiratory and cardiovascular disease.

5. FIRE FIGHTING MEASURES

Hazchem Code

Extinguishers Use flooding amounts of water from a distance. Take care as contact

> with water will release toxic chlorine gas. Do not use foam or dry agent. Wear self-contained breathing apparatus (SCBA) and protective clothing.

Fire Fighting Procedures

Hazardous Decomposition **Products**

Other precautions

Decomposes on heating emitting toxic fumes of chlorine as well as

liberating oxygen.

Not combustible, however (oxidizer) ignites combustible or organic materials when in contact. Emits toxic fumes of chlorine as well as liberating oxygen, therefore dangerous in a fire situation. Keep away from heat, sparks or naked flames. Heating may cause explosion.

Contact with acids or strong alkalis may generate heat.

6. ACCIDENTAL RELEASE MEASURES

Spills Evacuate all unnecessary personnel. Wear protective clothing as

specified in the Personnel Protection section of the MSDS. Sweep up material and place into a suitable labelled container. Collect with spark free tools, avoid the creation of dust. Mop up the remaining material and place into the same container. If large quantities of the material enter the waterways contact the Environmental Protection Authority, or your local

Waste Management Authority.

7. HANDLING AND STORAGE

Product Name: HY-CLOR BLACKSPOT AND ALGAE REMOVER Review Date: 7 February 2019

> Version 2.0 Page 3 of 7

Handling Keep out of the reach of children.

Avoid skin and eye contact and inhalation of dust. Wear appropriate protective equipment and clothing. Use in a well ventilated area. Avoid spillage onto floor. Keep containers closed when not in use. Maintain personal hygiene by washing hands prior to eating, drinking, smoking or

Review Date: 7 February 2019

using toilet.

Storage Keep out of the reach of children.

Store in a cool, dry, well ventilated area, out of direct sunlight. Store in suitable, labelled containers. Avoid any dust build-up by frequent cleaning and suitable construction of storage area. Keep storage separated from work areas. Inspect periodically for deficiencies such as

damage or leaks.

Incompatibilities Calcium hypochlorite (dry or hydrated) and its mixtures are

incompatible with, and must be stored away from, dichloroisocyanuric

acid, ammonium nitrate, trichloroisocyanuric acid, or any

chloroisocyanurate, strong acids, aluminium, iron, lead, magnesium, and zinc. Ensure pallets are clean and free of oil. Keep containers closed

when not in use - check regularly for spills.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure StandardsNo ingredients in this product have exposure standards, as outlined in

the standard *Exposure Standards for Atmospheric Contaminants in the Occupational Environment* third edition, published by the National Occupational health and Safety Commissions/AGPS,1995. Chlorine

Peak Limitation is 3 mg/m3 (1 PPM)

Engineering Measures Avoid generating and inhaling dusts. Use in a well ventilated area only.

Keep containers in a well ventilated area. Local exhaust ventilations

system may be required, especially if chlorine gas evolved.

Personal Protection Equipment

Clothing Suitable protective clothing should be worn e.g. cotton overalls and

safety shoes. Glasses, gloves etc.

Skin Protection Impervious PVC or rubber gloves should be worn.

Eye Protection Safety glasses with side shields or goggles should be worn.

Respiratory Protection If dust exists, wear respirator meeting the requirements of AS/NZS 1716.

Personal HygieneEnsure a high level of personal hygiene is maintained when using this product. Always wash hands before eating, drinking, smoking or using

the toilet.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance Crystalline Powder, Granular, Tablets White, Chlorine Smell

Boiling Point N/A

Freezing/Melting Point N/A

Specific Gravity
Flash Point
Upper Flammability Limit
Lower Flammability Limit
N/A

Solubility in Water Appreciable

pH 2.8 % (1% solution)

Product Name: HY-CLOR BLACKSPOT AND ALGAE REMOVER Review Date: 7 February 2019

Version 2.0 Page 4 of 7

10. STABILITY AND REACTIVITY

Chemical Stability Rapidly decomposes on exposure to air. May decompose violently if

exposed to heat or direct sunlight. Stable if stored and handled under

Review Date: 7 February 2019

recommended conditions.

Conditions to Avoid Avoid contact with combustible substances. Avoid contact with other

chemicals. Avoid contact with foodstuffs. Avoid exposure to heat,

sources of ignition, and open flame. Avoid exposure to moisture.

Incompatible Material Incompatible with combustible materials, acids, water, alkalis,

calcium hypochlorite (dry or hydrated), nitrogen compounds, sodium hypochlorite, reducing agents, ammonium compounds and oils and

greases. Incompatible with heat and hot surfaces.

Calcium hypochlorite (dry or hydrated) and its mixtures are incompatible with dichloroisocyanuric acid, ammonium nitrate, trichloroisocyanuric

acid, or any chloroisocyanurate, acids, aluminium, iron, lead,

magnesium, and zinc.

Hazardous Decomposition

Products Chlorine, Oxides of Carbon, Oxides of nitrogen

11. TOXICOLOGICAL INFORMATION

No Hazardous health effects if the product is handled in accordance with this Safety Data Sheet and the product label. Symbols or effects that may arise if the product is mishandled and overexposure occurs are:

Toxicology Information: Oral LD 50 (rat) = 406 mg/kg

Acute Effects

Swallowed Harmful if swallowed. Ingestion may cause nausea, vomiting, shock and

coma. Corrosive. Will cause severe damage to the mucous membranes, including irritation and/or burns to the entire gastrointestinal tract. This is characterised by nausea, vomiting, diarrhoea, abdominal pain, bleeding and/or tissue ulceration. May also cause circulatory collapse, cyanosis, shock, confusion, delirium and swelling of the throat

or tongue resulting in obstruction of the airway.

Skin Harmful in contact with skin. Corrosive to skin – causes burns. Dermal

exposure can cause severe irritation and/or burns characterised by redness, swelling and scab formation. Skin contact may also cause

eruptions and eczema.

Eye Causes burns and is a severe eye irritant. Contact may cause

impairment of vision or corneal damage.

Inhaled The powder is an irritant to the mucous membranes and respiratory tract.

Inhalation of dust will result in respiratory irritation. Inhalation may result in headaches, dizziness and possible nausea. May also cause burns to the respiratory tract with the production of lung edema which can result in shortness of breath, wheezing, choking, chest pain and impairment of lung function. Inhalation of high concentrations can result in permanent

lung damage.

Long Term Effects Prolonged skin exposure may cause destruction of the dermis with

impairment of the skin at site of contact to regenerate.

Product Name: HY-CLOR BLACKSPOT AND ALGAE REMOVER Review Date: 7 February 2019

Version 2.0 Page **5** of **7**

12. ECOLOGICAL INFORMATION

Ecotoxicity Highly toxic to aquatic life. Avoid contaminating waterways.

13. DISPOSAL CONSIDERATIONS

Disposal Methods and Containers Dispose of according to relevant local, state and federal

government regulations.

Review Date: 7 February 2019

Special Precautions for Landfill Contact a specialist disposal company for landfill.

14. TRANSPORT INFORMATION

UN Number 2468 Land Transport ADG

UN Proper Shipping Name Trichloroisocyanuric Acid Dry Oxidiser

Dangerous Goods Class 5.1 Oxidising Substance

Packing Group II Hazchem Code 1W

Special Precaution to User This material is classified as a Class 5.1 Dangerous Good according to the Australian Code for the Transport of Dangerous Goods. Class 5.1 oxidising agents shall not be

loaded or packed in the same vehicle or freight as

Class 1 Explosives

Class 2.1 Flammable Gases
Class 2.3 Toxic Gases
Class 3 Flammable Liquids
Class 4.1 Flammable Solids

Class 4.2 Spontaneously Combustible Substances
Class 4.3 Dangerous when Wet Substances

Class 5.2 Organic Peroxides

Class 6 Toxic Substances (where the toxic substances are fire risk substances)

Class 7 Radioactive Substances

Class 8 Corrosive Substances (Certain Exemptions Apply)

Class 9 Miscellaneous Dangerous Goods (where the miscellaneous dangerous goods are fire risk

substances or Combustible Liquids).

15. REGULATORY INFORMATION

Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail; DANGEROUS GOODS.

Poison Schedule: S5

This material is hazardous according to Safe Work Australia: HAZARDOUS SUBSTANCE.

16. OTHER INFORMATION

ADG Australian Code for the Transport of Dangerous Goods by Road &

Rail Edition 7.5, 2017

AS/NZS Australian Standard/New Zealand Standard

CAS Number: Unique Chemical Abstracts Service Registry Number

EC₅₀: Ecotoxic Concentration 50% – concentration in water which is fatal to

50% of a test population (e.g. daphnia, fish species).

Product Name: HY-CLOR BLACKSPOT AND ALGAE REMOVER Review Date: 7 February 2019

Version 2.0 Page 6 of 7

GHS: Globally Harmonized System of classification and labelling of

chemicals (GHS)

Hazchem Code: Emergency action code of numbers and letters that provide

information to emergency services, especially fire fighters

Review Date: 7 February 2019

HCIS: Hazardous Chemical Information System

(http://hcis.safeworkaustralia.gov.au/HazardousChemical)

IARC: International Agency for Research on Cancer

LD₅₀: Lethal Dose 50% – dose which is fatal to 50% of a test population

(usually rats).

IDLH: Immediately dangerous to life or health (IDLH) is defined by the US

National Institute for Occupational Safety and Health (NIOSH)

LC₅₀: Lethal Concentration 50% – concentration in air which is fatal to 50%

of a test population.

NTP: National Toxicology Program (USA)

SDS: Safety Data Sheet

STEL: Short term exposure limit (STEL) means the time-weighted average

maximum airborne concentration of a substance calculated over a 15

minute period.

TWA: 8-hour Time-weighted average (TWA) means the maximum average

airborne concentration of a substance when calculated over an eight-

hour working day, for a five-day working week.

WES: Workplace exposure standard

UN Number: United Nations Dangerous Goods Number
